

Model 4075 (Shown with 600# & 3000# Gauges)

The CT-475 piston regulator is durable, accurate and designed for applications requiring high volume and flow. Guaranteed not to freeze.

FEATURES

- Freeze proof
- Durable machined brass piston style regulator with internal safety
- Adjustable up to 475 psi.
- Bleed down feature makes adjusting output pressure simple and quick.
- Dual 2" easy-to-read gauges.
- 1/4" Flare NPT outlet port.
- N2/CGA 580 or CO2/CGA 320 Tank Nut connections.
- Custom pressure ranges, gauge configuration, porting and private labeling are available.
